Unfortunately, I can't read this on my laptop. I think its the POD Action Plan. If either of you can read it, let me know if its interesting. Or, if you're really bored, you could try opening it, then attaching it under our email system, then send it to me so I can read it.

Maybe not.

Subject: Pelagic Organism Decline (POD) Report for WOMT

Attached is the finalized POD report and transmittal letters. The report will also be posted on the DWR website soon. Since the report was just recently approved for print, we may not have sufficient copies in time for distribution at tomorrow's WOMT meeting. You may want to download and print the copy for your use.
